THE EXPERT'S TECHNICAL CORNER: HOW I DO IT

It is a featured section that publishes narrated videos provided by renowned expert surgeons.

This section is designed to depict step by step “how to” perform an operation, a multimedia manual for operative procedures. The submitted videos of each article must be no longer than one hour in duration and must be accompanied with descriptive text. The main text should include four subheadings – **Abstracts, Introduction, Operative Techniques and Comments**. The abstract is limited to 300 words. The main section on Operative Techniques should include detailed descriptions of the procedures in a step-by-step format of no more than one paragraph of less than 10 lines for each step. Expert opinions regarding possible pitfalls and the comparison of the described procedure with other methods are encouraged in the Comments section.

The corresponding author must confirm in the Copyright Transfer Agreement, that he/she has received a signed release form from each patient recorded on the submitted video. Importantly, patients should not be identifiable in these videos. Prior to publication and distribution, the journal reserves the right to edit the submitted video, including the insertion of a voice-over. If required, additional video editing by the authors (which may delay publication) may also be requested
